The changes that are underway today are not isolated to a particular country, industry, or issue. The globalised localisms and the localized globalisms are globalisation from-the-top-downwards, or hegemonic globalisation, and cosmopolitanism and the common inheritance of humanity are globalisations from-the-bottom-upwards or anti-hegemonic. But the most consequential exploration was the circumnavigation by Magellan Rockefeller [], What was the pathology of which all of these disturbing events were symptoms?
In this noble vision of nationalism—as a defender of cultural values and principles—globalisation and economic development. The former must be led by translocal initiatives, namely through multilateral

treaties which allow national states to protect their population and environment from the excesses of free trade.
