klein dytham architecture: koban

Koban Scifi series. K likes. The Krall were a warrior race. They captured humans to test on Koban, a high gravity world and impossibly fast animals.

The human worlds are strong, but the Hok have the resources of a thousand planets behind them, and their fleets attack in endless waves. Growing weary of our failures in testing, the ruthless Krall are on the verge of a decision to eliminate our species. I eagerly await the next book in this well thought out and enjoyable series.

Koban is an uninhabited high-gravity planet with impossibly fast savage animals. Only through the attrition of war will the Krall perfect their bloodline to become the masters of Koban. I was born in so I'm an autumn rather than a spring chicken. No current Talk conversations about this book.
