Callinicos is trying to clarify his position within the Marxist debates on imperialism. Grounding imperialism in these central economic rivalries does not necessitate ignoring or downplaying their political manifestations. He emphasized both imbalances, with more observations on the first type of contradictions.

Callinicos is very good at summarising and explaining the growth of what is called the divide. Sometimes that country is excepted from the divide, with the same argument used twenty years ago to highlight the uniqueness of South Korea or Taiwan. Numerous studies coincide in highlighting the current widening of social fractures in all parts of the planet. As for the World Bank, a weighted voting system operates: depending on the amount paid as contribution by each member state.

Problems of Transnationalism The current stage of productive globalization and Neutralizations The dependency thinker highlighted the pre-eminence of polarization on a global scale.
