By then Galileo had become blind, and he spent his time working with a young student, Vincenzo Viviani, who was with him when he died on January 8, There he wrote up his unpublished studies that had been interrupted by his interest in the telescope in and pursued intermittently . Edizione Nazionale Florence, Consider a point on the earth under the joint action of the annual and diurnal movements. So he produces the argument that the fixed stars must be at an inconceivable distance with the smallest larger than the whole orbit of the Earth.
