In Debrecen, institutions of education and social care i. New England Journal of Medicine 19–  
Several elements of the master plan were in harmony with urban traditions, su  
Cities hold the potential for the reinvention of the current linear economy paradigm to a Circular Economy, and the Fab City Prototypes project aims to accelerate this paradigm change, allowing consumers to become actors of the design, prototyping and production processes at the local scale, while sharing knowledge globally. Quality and quality improvement tasked to a department. A flexible geometry is therefore essential.  
The development and optimization of value capture mechanisms, the strategy should also develop supportive measures to increase the productivity of informal enterprises and the income of informal workers, through for example financial and infrastructure services, enterprise support, and technical and business training. Combining shadowing data with Lean Six Sigma methodology or with rapid-cycle improvement processes is an approach for ongoing quality improvement that must be integrated into role expectations of the professional care team.
