Gallopín, M. At that event, a select group of scientists, economists, leaders in business and other disciplines focused attention on actions needed to stem the loss of global biodiversity.

We use cookies for a number of reasons, such as keeping our sites reliable and secure. By it was time to take a hard look at the blue part of the planet--largely neglected by conservation organizations, national governments and international policymakers, despite alarming trends that closely parallel declines of natural systems and species on land, and with similar devastating consequences to the interests of humankind.
